Summer Undergraduate Research 2008

Study the Earth’s interior through independent research using state of the art facilities with the Mineral Physics Institute

Program

※ Ten weeks at Stony Brook University working on projects in Earth sciences concentrating on high pressure research, June 2 - August 8, 2008
※ Design experiments, collect and interpret results
※ Present findings to other scientists at a national meeting

Eligibility

※ Undergraduate majoring in any of the physical sciences or mathematics
※ 60 academic credits completed
※ Interest in research career in Earth Sciences
※ U.S. citizens or permanent residents

Financial Support

※ $3800 Stipend
※ Travel allowance up to $600
※ Housing on the University campus

To Apply

Go to www mpi.stonybrook.edu/summerscholars
Application form and instructions are posted on the website
Along with the application include a personal statement and two letters of recommendation
Mail to:
MPI REU Summer Program
Mineral Physics Institute
Stony Brook University
Stony Brook, NY 11794-2100
or email to: Samantha.Lin@sunysb.edu

Evaluations begin upon receipt of application, Selections begin March 27, 2008

Check the website, www mpi.stonybrook.edu/summerscholars, for more information and past summer projects or contact:
Coordinator: Michael Vaughan, email: Michael.Vaughan@sunysb.edu
Staff Assistant: Samantha Lin, email: Samantha.Lin@sunysb.edu
MPI Office Phone (631) 632-8241

This program is supported by a Research Experience for Undergraduates (REU) grant through NSF

The State University of New York is an affirmative action / equal opportunity educator and employer
